## ABOUT ME

As a committed student of communications and computer engineering, I bring a robust grounding in software development and a keen proficiency in web technologies. My skill set spans multiple programming languages and frameworks, and I have practical experience in crafting contemporary web applications as well as adeptly managing databases. My passion lies in harnessing the power of technology to address tangible challenges and to elevate the user experience.

### UNDERGRADUATE

## INTERNSHIP

alx

May 2023 - Oct 2024

cairo

### SOFTWARE ENGINEER

ALX is a transformative technology training platform committed to unlocking the limitless potential of opportunity for individuals across Africa and beyond. In partnership with the Mastercard Foundation and other industry leaders, ALX aims to provide world-class tech training designed to equip learners with in-demand skills for the future.

## WORK EXPERIENCE

EliteXtech

Oct 2022 - Present

cairo

### WEB DEV

- Engineered and executed web applications leveraging React and Svelte-Kit, boosting user engagement by 30% through collaborative development efforts.
- Optimized RESTful API development with FastAPI, achieving enhanced data retrieval efficiency via query performance improvements.
- Facilitated application deployment utilizing Docker and orchestrated Nginx configurations for superior web server management.
